| 24 | The cost of living in Golden is completely off balance. Housing costs, retail costs (including groceries) & taxes are all high yet wages are low, job security is near nonexistent and consistent work is uncommon. After 10 years my family is relocating (both adults are working professionals) as a result of Golden's reluctance to move forward economically. | Aug 29, 2011 2:06 PM |

| 110 | There is not one change or action that I can identify to fulfill this criteria. Instead, I am listing several below. These are reasons I can see my own family moving away from Golden in the future. Golden needs to work on job creation within the town. It is difficult to find jobs that pay over \$20 per hour. Sometimes one spouse has a decent paying job, but the other spouse cannot find a decent job and has to look at other communities for employment. Instead of spending \$16,000 on 'Homeseekers program' attempting to encourage people to move to Golden since the internet has improved, they could spend this money more appropriately. How many people actually moved to Golden because of that campaign? I would have preferred this money was put towards a year round swimming pool facility. Golden needs a pool. It does not need to be a huge expensive recreation complex. The lack of year round swimming is a deterrent to seniors and families with children. This would also encourage people in Golden to be more active in the winter months when some people do not like cold weather or for those who cannot afford some of the other winter sports for children (i.e. hockey, skiing or snowboarding). The elimination of french immersion schooling from kindergarten to grade 3 is a another deterrent to families with young children. It seems the | Aug 18, 2011 7:41 PM |

| 117 | Having LP up and running full time throughout the year for all employees to work each and every week. Being the largest employer in Golden many people are dependent on them to provide for their family so they can stay in Golden and spend their money here to boost the economy. My daughter works there and she was laid off these past two weeks and possibly more and she is a single parent needing to work fulltime to pay her bills and keep a roof over her family. She will not be able to pay her rent Sept 1st, thankfully we can help her out at least for a month or two but after that I just don't know. She has been at LP for over 3 years with no job stability. | Aug 17, 2011 7:56 PM |

| | started they walk away. I have approximately 7 files from potential businesses that were turned down due to impossible rules or lack of willingness to change. If the community does not open the door or start looking for more businesses to join the community there soon will be no community. Then all other serious priorities are a moot point. Let's change the golden economy and be a strong healthy thriving community as opposed to more empty business buildings than full ones | |

| 187 | The town of Golden needs growth and development for long term sustainability as relates to the economy, work, opportuniites and be the choice town to live in and start a family. My perception of the town is one where people want it to stay the way it is which in my world is a shame and a lost opportunity for all residents. | Aug 9, 2011 8:00 PM |
| 188 | An economic climate for families to thrive and prosper in the Golden area. KHMR to install 2 new high speed quads to provide for more terrain at KHMR. | 201 | Although I ranked the economy as first, it needs to be looked at through sustainable lenses. Therefore the environment is always first as it is our home and livelihood. Having said this, we need to look at economy with new eyes. Local food security options could be a start. | Aug 9, 2011 10:02 AM |
| 202 | Improving the path networks, etc, in and around Golden to outlying communities, and features. A robust system will support increased tourism, increased health benefits of locals, increased assessibility for all to many local communities/resources, and is a draw for people of all income levels and health statuses. Increased tourism will bring increased demand for services, housing, and result in more jobs/opportunites. (ie - Whistler, Canmore, etc) | Aug 9, 2011 9:56 AM |
| 203 | Time. We are still in transition from resource based economy to....? As we move forward and redefine, some of the issues may resolve themselves with the establishment of a new status quo and the resultant adjustments in work/housing cost/ etc. Of course, a new high employment ceiling industry moving to the area would be quite helpful. | Aug 9, 2011 8:56 AM |
| 204 | Higher wages | Aug 9, 2011 8:39 AM |
| 205 | Golden needs another core major Industry to create employment capable of sustaining families. Tourism, while great tends to produce entry level and part time jobs that compound all of the problems / questions youv'e asked above. Too many downtown storefronts are empty. | 220 | better wages so we can afford to leave here. Not getting more in dept everyday by wanting to own a house in small golden (also, getting paid for what we are worth, not getting used) I am hoping to have children if I can find a way to work for more money with only a 40h/week (not working 2 jobs and over 60h/week) | Aug 8, 2011 6:39 PM |
| 221 | Getting a council that had some business smarts and understood that creating an environment of business to succeed brings success in all other area. Quit wasting our tax dollars on many of the things that you included in your survey. Without jobs for our citizens we don't have a community. GAI needs to focus solely on working with council and Area A rep to create a pro business environment. Cut the regulations, cut the number civic management/office staff, reduce taxes, stop wasting money on things like transit (nobody or a very very small minority use it and it doesn't go where its needed), bike rental programs, bike paths on roads/streets, affordable housing and the list goes on. | Aug 8, 2011 4:36 PM |
| 222 | More active Area A leadership and residents. The Town is making positive changes but, with the same number of people spread thinly over a large area, Area A seems to do little. Many of the issues facing all of us are made worse in a low density community ie commuting, access to services etc | Aug 8, 2011 3:03 PM |

| 227 | management of mosquitos | Aug 8, 2011 12:51 PM |
| 228 | Keep costs of fascility use to a minimum...as low as possible. With the reduction of high paying jobs on a steady decline in golden we will have to keep costs to a minimum for the use of our facilities or we risk tourism to decline because they can't afford to come to our town and area A to enjoy what we have to offer...too expensive! | Aug 8, 2011 11:30 AM |
| 229 | More attraction in the down town area | Aug 8, 2011 10:19 AM |
